PATIO DOOR Self-Stick Weatherseal

For best results, ensure surfaces are completely dry and free of dust, grime or grease. Do not install when temperatures are below 50°F (10°C).

Installation: Measure height of door to be sealed. Cut product if needed using scissors or a razor. With door closed, remove backing paper and press adhesive side of tape firmly onto innermost door panel, making sure gap is sealed completely.

PUERTA PARA PATIO Burlete autoadhesivo

Para mejor resultado, asegúrese que las superficies estén secas y libre de polvo, sucio o grasa. No instale cuando las temperaturas estén bajo 50°F (10° C).

Instalación: Mida el alto de la puerta a ser sellada. De ser necesario, corte el producto usando tijeras o una navaja. Con la puerta cerrada, quite el papel de reverso y presione el lado adhesivo del burlete firmemente contra el panel interior de la puerta, asegurando que la abertura quede completamente sellada.
